DICOM adding more radiation attributes for 3D Craniofacial images

DICOM is reviewing a correction package (DICOM CP14_XX: Radiation attributes to X-Ray 3D CRANIOFACIAL Image IOD) in order to be able to store more radiation based information along with the image for 3D craniofacial images. This has been submitted by Andrew Casertano for review by the DICOM WG 22 and discussion. The review will take place on 2014-12-03.
