The screenshot shows the DICOM Secretariat's official site for 2015 DICOM Conferences. The page features the DICOM logo at the top left and the NEMA logo at the top right. Below the logos is a navigation bar with links to Home, About DICOM, Publications & Media, DICOMweb Workshop & News, DICOMweb 2015, and Contact. The main content area is titled "Welcome to the DICOM Secretariat's official site for 2015 DICOM Conferences!" and includes a section for "Past Conferences" with a list of events from 2010 to 2014. The "Coming August 27: DICOM Korea Workshop, Yonsei University, Korea" section provides details about the workshop, including its focus on DICOMweb and DICOMweb 2015. The "Coming September 10-11: DICOMweb™ Workshop 2015 in Philadelphia, PA" section provides details about the workshop, including its focus on DICOMweb and DICOMweb 2015. The page also includes a footer with the text "#DICOMweb2015" and "© 2015 DICOM Secretariat".

**Past Conferences**

- 2010 - Anaheim, US
- 2011 - Amsterdam, Portugal
- 2012 - Chicago, China
- 2013 - Rio de Janeiro, Brazil
- 2014 - Bangalore
- 2014 - Chicago, China

**Coming August 27: DICOM Korea Workshop, Yonsei University, Korea**

The 2015 Korea DICOM Workshop will focus on presenting the DICOM Standard, new features built on the DICOMweb, DICOMweb 2015, and DICOMweb 2015 in Korean. The workshop is in cooperation with the conference. Meetings will be held by DICOM Working Group 12 (Storage), Working Group 26, DICOM (Storage), Communication, and Standards August 26, DICOM Standards Committee, August 28. Interested persons may register to attend to these meetings as observers.

The Workshop and the meetings will be conducted in English.

More information and registration will be available on this site.

**Coming September 10-11: DICOMweb™ Workshop 2015 in Philadelphia, PA**

Do you know that there are many others of DICOM images in hospitals around the world today? Do they have those pictures in the DICOM format and other information in access, share, and control images using DICOM web 47%? These technology workshops provide interactive imaging, image acquisition image sharing, visualization, and visualization, patient engagement, image quality, and more.

On September 10-11, 2015, DICOM will have a two-day workshop to help attendees get up to speed. Topics will include:

- DICOM and medical imaging concepts for the web developer
- DICOMweb™ and web applications for the DICOM developer
- Implementation of DICOM web with other concepts, such as DICOMweb and DICOM
- Through introductions for IT and PACS administrators, and product managers
- The plan for the next DICOM web 47% implementation

If possible is planned for the second day of the DICOM Workshop, to give attendees hands-on experience with the new DICOMweb features and concepts. This will be available with hands-on experts providing guidance and insight into the development of new work experience.

More information and registration will be available on this site.
